

H-7 HUGGER Band

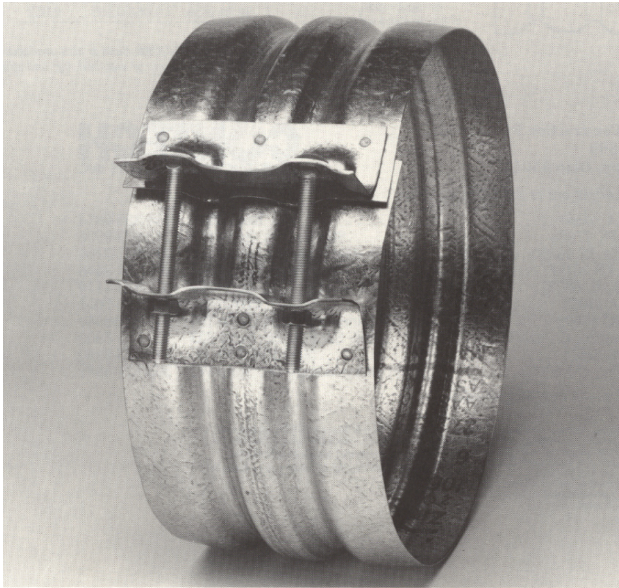

H-7 HUGGER Band

A simple, economical coupling for corrugated pipe

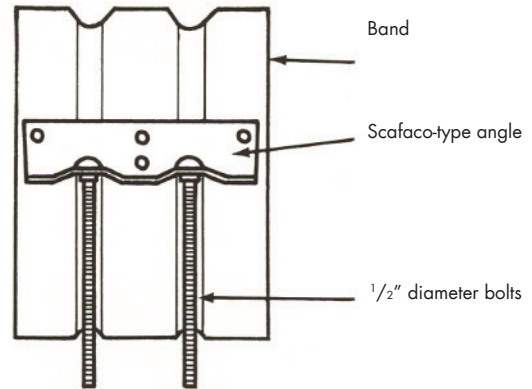

The H-7 HUGGER Band is a simple, low-cost coupling for helically corrugated pipe with rerolled annular ends. Like other HUGGER Bands, it is economical, simple and easy to install. The H-7 HUGGER Band provides excellent soilt tightness.

The H-7 HUGGER Band is available for pipe in diameters from 12 to 36 inches. It is available in galvanized steels or Aluminized Steel Type 2 for added corrosion resistance.

Within the size range given, the H-7 HUGGER Ban meets the specifications of AASHTO's Joint Performance Cirteria in the Standard Joint category. Details are shown to the right.

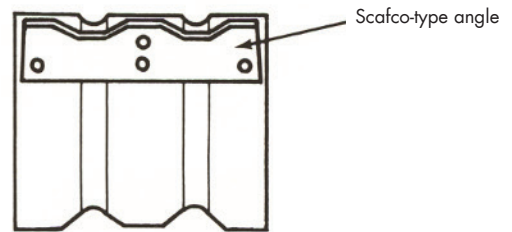

H-7 HUGGER Band 2 2/3" x 1/2" Corrugation H-7 Standard Joint HEL-COR®

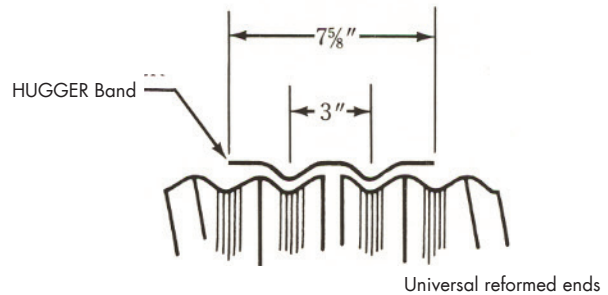

Connection Detail

Scafco-type angles are attached with spot welds, rivets or hand welds

Section

Pipe Size, in.	Nominal Thickness, in.		Type of Connector
	Pipe	Band	
12 thru 36	0.064-0.109	0.052	Scafco-type angle

Note: The H-7 HUGGER Band is also available with a single-bolt Scafco-type angle or with bolt, bar and strap connectors.
