

GOLF COURSE UNDERPASSES/OVERPASSES

- Long life cycle
- Lower initial cost
- Attractive appearance
- Clear spans, multiple rises
- Extensive technical support

Jess Ranch Golf Course – single-span underpass serves as grade separation for golf cart path and carries residential roadway traffic

Bridgewater Club – custom-designed pedestrian truss complements the club architecture, with deck lighting and ornamental treatment on the railing posts

Los Lagos at Palmas del Mar – functional and aesthetic multi-span golf cart bridge treated with stonework on the facade

Disney Celebration – design accommodates lighting in this golf cart underpass located within a Disney theme area
