

# GOLF COURSE UNDERPASSES/OVERPASSES

- Long life cycle
- Lower initial cost
- Attractive appearance
- Clear spans, multiple rises
- Extensive technical support

**Jess Ranch Golf Course** – single-span underpass serves as grade separation for golf cart path and carries residential roadway traffic

**Bridgewater Club** – custom-designed pedestrian truss complements the club architecture, with deck lighting and ornamental treatment on the railing posts

**Los Lagos at Palmas del Mar** – functional and aesthetic multi-span golf cart bridge treated with stonework on the facade

**Disney Celebration** – design accommodates lighting in this golf cart underpass located within a Disney theme area
