INDUSTRY LEADER

For more than a century, Contech has provided innovative, cost-effective site solutions to engineers, contractors, and developers on projects across North America. With a portfolio that includes bridges, drainage, erosion control, retaining wall, sanitary sewer and stormwater management products, our team is ready to help you to design, build, and support your next project.

STORMWATER

Helping to satisfy stormwater management requirements on land development projects
- Bioretention/Biofiltration
- Stormwater Treatment
- Detention/Infiltration
- Rainwater Harvesting

PIPE

Meeting project needs for durability, hydraulics, corrosion resistance, and stiffness
- Corrugated Metal Pipe (CMP)
- Steel Reinforced Polyethylene (SRPE)
- High Density Polyethylene (HDPE)
- Polyvinyl Chloride (PVC)

STRUCTURES

Providing innovative options and support for crossings, culverts, and bridges
- Plate, Precast & Truss Bridges
- Hard Armor
- Retaining Walls
- Tunnel Liner Plate
Supporting every aspect of your project, from concept to installation, Contech is here to help! Our extensive network of local experts offers you comprehensive project management, technical support, and customer service.

**THE CONTECH ADVANTAGE**

**AGENCY/REGULATORY GUIDANCE**
Our team is ready to provide you with expert advice and assistance on local regulatory requirements, resulting in faster approvals.

**TECHNICAL EXPERTISE**
Our engineers assist by providing product-specific engineering calculations such as hydraulics, buoyancy, foundation reactions, and unit sizing.

**SOLUTION DEVELOPMENT**
Our engineers can review your requirements, weigh all options, and recommend the optimal solution to integrate with your site designs.

**SITE SPECIFIC DRAWINGS**
Our engineers can provide site-specific drawings for proposals, project meetings, and submittals, helping you be more efficient with your time.

**COST ESTIMATES**
We can quickly provide engineer’s cost estimates to assist with your solution selection process.

**ON-SITE ASSISTANCE**
Contractors know time is money, so we provide preconstruction meetings, delivery coordination, and on-site installation support to ensure a timely, smooth installation.
Contech’s experience in a variety of applications ensures optimal product integration for your project. A wide range of markets and applications can benefit from the diverse Contech family of products, industry-leading technical specialists and exceptional service. Find out more at www.ContechES.com/markets.
Regardless of your project’s objectives and constraints, our team of Stormwater Design Engineers, Regulatory Managers and local Stormwater Consultants are here to provide you with expert advice and assistance on your next Stormwater project.

**SOLUTIONS INCLUDE**
- Bioretention/Biofiltration
- Stormwater Treatment
- Detention/Infiltration
- Rainwater Harvesting

**ADDITIONAL RESOURCES:**
Contech helps engineers and contractors tackle a full range of applications with a variety of pipe material, thicknesses, corrugations, and coatings. Each of our solutions are designed for specific service life requirements, hydraulics, corrosion resistance, stiffness, and ease of handling and installation.

APPLICATIONS INCLUDE:

- Drainage
- Culverts
- Storm Sewer
- Sanitary Sewer
- Combined Sewer Overflow
- Reline/Rehabilitation

ADDITIONAL RESOURCES:

- Pipe Blog at www.ContechES.com/pipe-blog
- Project Design Worksheets at www.ContechES.com/pdw
Contech offers an unparalleled choice of structural plate, precast concrete arch and truss bridges for vehicular and pedestrian needs.

SOLUTIONS INCLUDE

- Structural Plate
- Precast Systems
- Vehicular Truss
- Pedestrian Truss
- Precast/Steel Foundations
Contech provides a comprehensive array of bridges, with the best-known brands available worldwide. Contech bridges - vehicular and pedestrian - fit a wide variety of applications, spanning distances from five to 300 feet and more.

ADDITIONAL RESOURCES:

Design Your Own Bridge Tools
- Design Your Own ALBC - www.ContechES.com/dyoalbc
- Design Your Own Plate - www.ContechES.com/dyoplate
- Design Your Own Precast - www.ContechES.com/dyoprecast
- Design Your Own Truss - www.ContechES.com/dyotruss
Contech provides a range of solutions for erosion control and retaining walls. Whether you are establishing vegetation, protecting against high-shear stresses, or restricting silt displacement, you can find a high-quality and cost-effective solution with us.

SOLUTIONS INCLUDE:

- Hard Armor
- Turf Reinforcement Mats
- Geosynthetics
- Geocomposites
- Concrete & Metal Retaining Walls

ARMORFLEX®

A-JACKS®

ARMORLOC®

ARMORWEDGE®
CONTECH® 2-FLANGE TUNNEL LINER PLATE

METRIC SHEETING

BIN-WALL
APPLICATIONS
Guided by more than a century of research, practical field experience, and customer proven innovation, our solutions will help you design, build, and install with ease and speed. Contech’s experience in a variety of applications ensures optimal product integration for your project.
ONLINE DESIGN TOOLS

Contech makes it easy for you to design your own project with our convenient suite of design your own project (DYO Project) tools.

- **DYOB® – Design Your Own Bridge** » Enter information and specs to receive a schematic of your bridge. Choose from structural plate, precast or truss options.

- **DYODS® – Design Your Own Detention System** » Quickly prepare project specific drawings for estimates/project meetings.

- **DYOHDS™ – Design Your Own Hydrodynamic Separator System** » Input design criteria and the tool will select the appropriate HDS unit(s) for your site.

- **Land Value Calculator** » Compare the real and opportunity costs of land-based systems with underground stormwater systems.

- **Pipe Calculators** » Access height of cover tables and CAD drawings for all of our pipe products.

- **Project Design Worksheets** » Not sure where to start? Contech has project design worksheets available. Simply provide some general details to help us get started. Submit and we’ll take it from there!
