

	Product	Specification	Features & Benefits
	Tunnel Liner Plate	2-Flange (Steel & Aluminum)	- Twice the stiffness of 4-Flange - Lighter weight, avoid ring beams - Efficient means to construct vertical shaft access - Available in black or dip-galvanized steel - Asphalt coated optional
	Bridge Plank	6" x 2" 9" x 3" 12" x 4.25"	Used for support of new or surface asphalt bridge decks
	Bin-Wall	Type 1 Type 2	- Effective as gravity retaining walls, revetments or protective barriers - Easy to install - Lower initial cost and reduce maintenance expenses - Rapid assembly with unskilled crews
	Contech Sheeting	Metric Sheeting	- Lightweight - Used for erosion control and light duty earth retention & bulkhead walls
	Rail Collector Pan	Type 1 14'-0" 11'-4"	- Used for collecting fuels and other liquid contaminants from overflows - Available in a variety of materials to meet most application criteria - Simple installation - minimum track downtime - Modular system
		Type 2 9'-10" 10'-0" (modified)	
	Hel-Cor Pile Shell	18 Gage Steel Casing	- Used for Pressure Injected Footing designs (PIF Piles) - Combine with timber piles to create a composite pile - Cost-effective alternative to fully-treated timber piles
